## About This Game

### Retro Platformer Flare

JumpJet Rex features beautiful hand-drawn 16-bit graphics and classic chiptune music that transfers dino lovers back to the 2-D glory days of the early 90's.

### Secrets and Collectibles

With dozens of items stashed across the Galaxy, and many secret areas to discover, JumpJet Rex offers plenty to do for the treasure hunters in the house!

### Replayability

With a time challenge twist, players can replay every level multiple times to prove their platforming prowess. Download ghosts to race against the best players in the world, or compete directly with your friends to see who can post the best times!

### Killer Old School Gameplay

Remember when platformers were so tough that people would hurt their hands playing, but feel amazing after getting past a level? Relive those moments with JumpJet Rex's strenuous platforming challenges and retro boss battles.

### Co-op Mode

Saving all of dinokind from a giant asteroid barreling down on Earth is a pretty tall task for a T-Rex with tiny arms, so players can team up with a friend to take on challenges. Teammates must coordinate efforts in order to avoid mass obliteration.

### Customization and Upgrades

---

No two T-Rex's are alike and fans will be able to customize their character and upgrade their appearance with the loot they collect on their travels.

## Intelligence

Intelligence determines how well your character learns and reasons. This ability is important for wizards because it affects how hard their spells are to resist, and how powerful their spells can be.

The Int modifier applies to:

- Attack and damage rolls of wizard spells.
- The minimum Int score needed to cast a wizard spell is 10 + the spell's level.
- Behaviors and restrictions of creatures. e.g. Only creatures that have an Int score of at least 3 can wake up asleep companions.

An animal has an Int score of 1 or 2. A creature of humanlike intelligence has a score of at least 3.

One of the best VR multiplayer games available. The "climbey" like motion is the best in an VR environment, coupled with and wide range of power ups and weapons by a rpg gamestyle mechanic.

That chaotic feeling of finding and activating the right card in slow motion over a cliff edge when you have a player swinging at you with 2 miniguns is immensely entertaining!

9V10!

10V10 when we have a more players actually playing it.. Again if only there was a maybe selection I would choose that, but here's my breakdown:

The content as it says:

"Extend your experience in the unique universe of Dragon Ball Xenoverse with this DLC GT Pack 2 (+ Mira and Towa):

4 Playable characters (Eis Shenron, Nuova Shenron, Towa and Mira)

Episodes and Parallel Quests

Master (Pan) and Masters Quests

Skills, Costumes and accessories

Z-souls

This content allows you to go deeper into the story of Dragon Ball GT through the game alone or with other players travelling in the Toki Toki City."

I admire the work they put in trying to let everyone know about this new DLC #2 and getting the hype started and to be honest it really intrigues me, but kinda lack luster towards the end there. We had 2 new challengers in the GT content story Nuova and Eis, and honestly I admired them in the GT series (lets keep in mind Steam acquired this DLC, they didn't make it themselves), they were kinda just smacked there in the middle and basically told us "here fight these guys and boom have at it and you win". Where was the moment Future Kid Goku had troubles with them both and had to resort to Super Saiyan 4 Goku BEFORE Omega Shenron even arrived in the first place. The DLC had good intentions, but honestly lacked that action packed adventure we all wanted.

If you have the DB: Xenoverse Season Pass like I do, you can't really complain because you are saving more than you would if you bought these DLCs individually as Steam continues to implement them. For now I'm going to just say this, if again you have the season pass just take what they give you even if it might not be that great, just enjoy it, and for others who haven't acquire the season pass I'd say get that so you can partake in upcoming content without having to waste a whole lot of euros/dollars wherever you're playing this or wait for most of these DLCs to go on sale which I know will be a while from now. DLC #1 and #2 is okay and at least live up to their standards, just lets wait and see for whats to come in DLC #3.

Bonus: To actually know a little sneak peak of whats going to be in DLC #3, check out the community group and browse through to see information on it and tid bits.

As always happy travels my Time Patrollers and see you for DLC #3. Peace!. Very short game. Shows promise by the developer. About 1 hour total play time.. Lethal League meets Harry Potter.. A worth to buy original sound track \*manly tears\*

Good luck for better innovation Valve Corporation .. we like you. I like it! Good additions compared to the free version.. Its like regular DOW but I don't know the difference, probably something.. Beautifully made classic adventure. Amazing art design, The storyline is funny, bizarre with an absurd humor in a imaginative world. I love CID. It's a good gag gift. The gameplay is good but everything else is bad in my opinion.

The writing is dreadful... not sure if it's translated but you'll read stuff like "Har ! Har ! Y - Your so stupid Har ! G - Giant"

The graphics are also terrible, but at the price I guess that's a given. Still, doesn't excuse it.

The gameplay itself is alright...

For a Breakout clone, it's unique because it's set in a horror universe. Lots of cool power ups but seems like the game was written to appeal to the kids with raging hormones.

Cool tower system reminiscent of games like Mortal Kombat. You move upward as you progress. Not bad.

I can't recommend it... not even for \$0.99 Sorry. If there is one thing I can't stand, it's badly written dialogue.

Will I play it again? Maybe. I don't know, I might just uninstall it and be one with it.
